

# CUBE SIT

The CUBE SIT Range by Welwood is designed to create comfortable, semi-private spaces within open environments. Featuring fully upholstered walls and clean, curved lines, the Cube Sit provides privacy and visual separation without the need for permanent walls. The supportive seating and enclosed form encourage focused work, informal meetings, or quiet conversations while maintaining a modern, refined aesthetic.

| DESCRIPTION               | DIMENSIONS            | NOTES   |
